

SEASON 2, EPISODE 2058: THE FUTURE LOOKS BRIGHT

Jen and Alex love their 1940s LA home, which is full of character and still has some of the original features. They cannot imagine living anywhere else and want their young kids to grow up in the house they were born into. But while the couple love the home's vintage charm, its closed-off layout and outdated features are no longer functioning for the growing family. Wanting a space with clean lines that reminds Alex of growing up in Sweden, Drew and Jonathan tackle the living room, dining room, kitchen, mudroom and backyard to give Jen and Alex a clean, bright transformation the embraces both the past and the present.
