

SEASON 2, EPISODE 2070: MODERN COWBOY MAKEOVER

Zonita and former cowboy Barry love their vintage ranch house and cannot imagine setting down roots anywhere else. The house is down the street from where Barry grew up, they have his family close by, and there is a great school within walking distance for their young son. But with the awkward main floor layout, a dated mustard yellow kitchen, and an unsafe fireplace, the home needs a lot of help. Drew and Jonathan assuage Zonita and Barry's conflicting design ideas and completely transform the kitchen, living room, dining room and home office/playroom to give the couple a bright, beautiful and safe modern farmhouse to make memories in for years to come.
