

PROPERTY BROTHERS

SEASON 7, EP 7173: BECKY & JUSTIN

The home that Becky and Justin purchased wasn't in their desired neighborhood—and had what we'll generously call a “unique” layout—but they saw the potential in its square footage. We got to work making major structural changes, like reconfiguring the kitchen and converting the former garage into the master suite, to accommodate their need for several entertaining spaces. By the time the dust had settled, this couple and their adorable baby were the proud owners of a flowing, fully functional home that's fit for all their friends and family.
