

\$AVE MY RENO

SEASON 1 ~ KAREN & MATT

Karen and Matt crave an open concept main floor. They have two young kids and a wall preventing them from proper sightlines. But the dividing wall is only the first of many 'wants' on their list. They want to overhaul their main floor so it looks more like an adult space, instead of a catch all for kids' toys. Quotes for their dream reno are a nightmare, coming in well above their budget. Sebastian and Sabrina use their expertise and completely transform the space with upcycled materials and repurposed cabinetry to save their reno.
